Gold Thread™ Spirea

Spiraea thunbergii 'Ogon'

Height: 4 feet

Spread: 4 feet

Sunlight: ○

Hardiness Zone: 4a

Description:

A wonderful garden shrub with thin, loose branches covered in white flowers in spring; attractive lemon-yellow foliage all season long, very fine textured and refined, forms a compact rounded ball; a great color accent for the shrub border

Ornamental Features

Gold Thread Spirea is bathed in stunning clusters of white flowers along the branches in early spring before the leaves. It has attractive chartreuse deciduous foliage which emerges yellow in spring. The tiny grassy leaves are highly ornamental and turn outstanding shades of coral-pink and orange in the fall.

Landscape Attributes

Gold Thread Spirea is a multi-stemmed deciduous shrub with a mounded form. It lends an extremely fine and delicate texture to the landscape composition which can make it a great accent feature on this basis alone.

This is a high maintenance shrub that will require regular care and upkeep, and should only be pruned after flowering to avoid removing any of the current season's flowers. It is a good choice for attracting butterflies to your yard, but is not particularly attractive to deer who tend to leave it alone in favor of tastier treats. It has no significant negative characteristics.

Gold Thread Spirea is recommended for the following landscape applications;

Planting & Growing

Gold Thread Spirea will grow to be about 4 feet tall at maturity, with a spread of 4 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front. It grows at a medium rate, and under ideal conditions can be expected to live for approximately 20 years.

This shrub should only be grown in full sunlight. It prefers to grow in average to moist conditions, and shouldn't be allowed to dry out. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This is a selected variety of a species not originally from North America.
