Ornamental Features

Scentara Double Blue Lilac features showy panicles of fragrant purple flowers with blue overtones rising above the foliage from early to mid spring, which emerge from distinctive rose flower buds. The flowers are excellent for cutting. It has green deciduous foliage. The heart-shaped leaves do not develop any appreciable fall color.

Landscape Attributes

Scentara Double Blue Lilac is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its relatively coarse texture can be used to stand it apart from other landscape plants with finer foliage.

This shrub will require occasional maintenance and upkeep, and should only be pruned after flowering to avoid removing any of the current season's flowers. It is a good choice for attracting butterflies to your yard, but is not particularly attractive to deer who tend to leave it alone in favor of tastier treats. It has no significant negative characteristics.

Scentara Double Blue Lilac is recommended for the following landscape applications;

- Accent
- Mass Planting
- Hedges/Screening
- General Garden Use

Ann Arbor
734-332-7900
155 N. Maple at Jackson

Clinton Twp.
586-286-6100
44850 Garfield Rd.

Dearborn Heights
313-278-4433
22650 Ford Rd.

Eastpointe
586-771-4200
22501 Kelly Rd.

Royal Oak
248-280-9500
4901 Coolidge Rd.

West Bloomfield
248-851-7506
6370 Orchard Lake Rd.

Planting & Growing

Scentara Double Blue Lilac will grow to be about 8 feet tall at maturity, with a spread of 8 feet. It tends to be a little leggy, with a typical clearance of 3 feet from the ground, and is suitable for planting under power lines. It grows at a medium rate, and under ideal conditions can be expected to live for approximately 30 years.

This shrub should only be grown in full sunlight. It is very adaptable to both dry and moist locations, and should do just fine under average home landscape conditions. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This particular variety is an interspecific hybrid.
